Instrument Care Reminders

Before putting your instrument back in its case after playing, do the following:

- Remove the reed, wipe off excess moisture and return it to the reed case.
- Remove the mouthpiece and wipe the inside with a clean cloth. Once a week, wash the mouthpiece with warm tap water. Dry thoroughly.
- Drop a weighted chamois or cotton swab into the bell and pull it out through the barrel.
- Carefully twist off the barrel and dry off any additional moisture. Place it in the case.
- Gently twist the upper and lower sections apart, with the bell still attached. Place the upper section in the case.
- Remove the bell and place the bell and lower section back into the case.
- As you put each piece back in the case, check to be sure they are dry.
- Your case is designed to hold only specific objects. If you try to force anything else into the case, it may damage your instrument.

○ = Open

● = Pressed down

Alternate fingerings are used in certain situations to allow for smoother technique. These are shown to the right of the more common fingerings.
